

Science, Technology, Engineering and Mathematics Courses

This is the current list of courses that meet the Science, Technology, Engineering and Mathematics (STEM) Requirement.

Courses used to meet University requirements cannot be used to meet this requirement.

MTH 1825, MTH 100E, MTH 103E, and MTH 290 may not be used for this requirement. For Bachelor of Science, MTH 103 may not be used for this requirement.

NOTE: Some majors have specific STEM courses listed for the degree. Students should consult with the Academic Advisors to ensure all degree requirements are met.
