COLLEGE OF SOCIAL SCIENCE

RESEARCH REPORT

Note from the Associate Dean
of Research & Graduate Studies

ANNA MARIA SANTIAGO

Thank you for taking time to peruse the MSU College of Social Science's 2019 Research Report. We are global leaders in science related to social and racial justice while advancing engaged learning and societal well-being. Through a College-wide process during the past two years, we also identified five focal or thematic areas of existing research excellence to amplify science aimed at addressing some of the most pressing or emerging social problems facing the region, nation and world. These thematic areas are focused on coastlines and people; minority politics; reducing health and social disparities among marginalized youth; sexual and gender minority physical and mental health across the lifespan; and the future of work and the human-technology interface.

This booklet highlights some of the work conducted by the nearly 600 faculty, research associates, research staff and administrators as well as the countless graduate and undergraduate students working each day in our college to transform the human experience. We had another very successful year in terms of grant awards which totaled more than \$28.5M in 2019. As you will see throughout this booklet, 2019 was also a very productive year in terms of research publications with more than 740 articles -- many of which were published in the flagship journals of our 13 disciplines -- and nearly two dozen books with prestigious publishers including Oxford, Cambridge and Harvard University presses.

To learn more about our research, please visit our website, socialscience.msu.edu.

Sincerely,

Anna Maria Santiago,
Associate Dean for Research and Graduate Studies

Dr. Cristina Gauthier-Hernandez, MSU Center for Global Change and Earth Observations, takes a water sample from a well at the Belo Monte Hydroelectric Complex in Pará, Brazil. She conducted this research in 2019 as a National Science Foundation Graduate Research Fellow and a doctoral student in the Department of Geography.

MISSION

We will be global leaders in top-tier research while
advancing engaged learning and societal well-being.

DISCIPLINARY FLAGSHIP JOURNAL ARTICLES

The complexity and scale of societal challenges demand agile and rigorous solutions that can emerge only through exceptional research, teaching and collaborations. Our diverse scholarship is present in the most significant social science journals.

GRANT AWARDS

Transforming the Human Experience

Our faculty collaborate with colleges across MSU and with other universities across the globe. Our faculty submitted grant proposals supported by federal and state agencies, and foundations. Our top funders are the National Institutes of Health, the National Science Foundation, the National Aeronautics and Space Administration, and the National Institute of Justice/Department of Justice.
